

EAGLE BLUFF JOURNAL TEACHERS MANUAL

Dear Teachers,

Hello and welcome to the new and improved Eagle Bluff Journal! We have added fun fonts, pictures, games for the bus ride, a coloring page, and more! The following are some suggestions on how to use the journal to your benefit and how to make it best fit your needs.

- Feel free to omit pages or change the order.
- There are five generic “My Classes” pages. If you are here for three days you need four pages. If you are here for five days you need eight pages.
- There are now two generic pages included for evening activities. You can have students write about the Naturalist Programs on these pages as well if you choose. If you are here three days, you will need two pages. If you are here five, you will need four.
- There are some class specific pages with questions geared for individual classes: these can also be found on the website or upon request.
- This manual includes a teacher’s key for the crossword puzzle and word find.
- Please save paper by copying on both sides if possible.

Thank you for taking the time to put together a journal for your school. We appreciate your hard work and dedication to your students environmental education. Have a great stay at Eagle Bluff!

Sincerely,

Eagle Bluff Education Staff
