

Winter Pond Lab

Date _____ Instructor's name _____

One of the PHYSICAL tests we performed was... _____

This test determines water quality by...

One of the CHEMICAL tests we performed was... _____

This test determines water quality by...

It is important to perform each test multiple times because...

Some of the variables that can affect water quality are...

-
-
-
-
-
-
-

Winter Pond Lab

Three things humans do that have a negative impact on watersheds are...

- 1.
- 2.
- 3.

Five actions humans can take to improve their impact on watersheds are...

- 1.
- 2.
- 3.
- 4.
- 5.

The quality of the water in the pond was...and we came to this conclusion because...

Here is my list of things for which I need clean water:
